The information being presented is critical to the administration of the winter Keystone Exams; therefore, it is required that every LEA participating in the 2014-15 Winter Keystone Exams send at least one representative to a training session. These are train-the-trainer sessions and are designed so that the representative who attends in-person can deliver the same information to his or her coordinators and administrators.

To register for the live session and view a list of available locations that will be broadcasting the event, visit PaTTAN's website at <http://www.pattan.net/category/Training/Calendar/2014/November>.
