"PREVIEWING THE PRINCIPALSHIP"

Presented since 1990 by NAESP state affiliates, this workshop continues to receive outstanding reviews. Participants explore the peaks and valleys of a principal's day-to-day life by prioritizing typical tasks from a principal's in-basket and analyzing a log of daily activities. They review statistics and studies about the current roles and responsibilities inherent in K-12 school leadership, examine and affirm their own professional talents and interests and map personal career plans. Rated most valuable among the daily activities is the opportunity to interact with a panel of successful principals who share their own experiences as administrators and respond to questions from workshop participants. Teachers and resource personnel identified by their principals to participate in this enriching opportunity have a head start on becoming capable leaders of tomorrow's schools.
