Sample Facebook post or comment:

Dear [LEGISLATOR NAME],

As you return to the table to seek agreement on a state budget, please remember that there is no more pressing issue facing Pennsylvania than the education of our children.

We need a basic education funding system that provides enough resources, in an equitable way, to educate all students to academic standards no matter where they live.

Please pass a budget that increases basic education funding by at least \$410 million to help restore past funding cuts, targeted at bringing districts back to the 2010 funding level as base year, and begin implementation of the new funding formula as unanimously adopted by the Basic Education Funding Commission.

Thank you,

[YOUR NAME]
