

Dr. Adolph Brown, III

Keynote Session - Sunday, October 25

1:00 - 2:15 p.m.

Attitude Changes Everything!

Your attitude and work ethic are the two things you have total control over. You have the power to decide how you are going to see the world -- and how the world is likely to see you. You can allow your attitude to support you or defeat you. Before you ever say a word, your attitude speaks on your behalf. Come along on this flight with Dr. Brown to really see how "Your attitude affects your cruising altitude."

Learning Objectives

1. Learn how to operate from inside a positive attitude whereby your body language sends out unmistakable cues of openness.
2. Learn how your attitude can infect the people who see you with the same behavior.

Speaker Bio:

Dr. Adolph Brown, III, without a doubt, offers the most uniquely inspiring, relevant and entertaining presentations around. He is an American urban and rural school educator, author, research-scientist, businessman and keynote speaker. **He is a servant-leader at heart, a life-long social justice advocate and a career teacher educator.** He is admired around the world for his simple and direct "Real Talk," and powerful, universal and timeless teachings. Dr. Brown is best known for inspiring all who hear him to learn, laugh and lead, while as an implicit bias speaker simultaneously reducing unconscious bias at every turn. He is the leading provider of anti-bias training in business and education. Dr. Brown knows that understanding structural inequities is only the start, however dismantling the foundations from which these structures are built leads to solutions. **He is highly regarded as the "balcony" leadership speaker who gets you from where you are to where you want to be.**

Also, as a credentialed Master Teacher, he helps teachers reach every student. As a much sought-after and highly effective Unconscious Bias, Equity, Diversity and Inclusion keynote speaker, Dr. Brown skillfully addresses the impact of stereotypes. He credits much of his success to the luxury of humble beginnings of being reared by a single parent mother in abject poverty of the inner-city housing projects infested with gangs, drugs and violence. His oldest sibling and only brother, Oscar, was murdered when Adolph was only 11 years old. Young Adolph often received a respite when he was sent to spend summers with his grandfather in rural farming country, and when he was sent to the library for time-outs in elementary school. Adolph became the first in his family of five to participate in Head Start, graduate high school and attend college.

From humble beginnings to being a clinical psychologist, teacher educator and research scientist, Dr. Brown considers his greatest accomplishments to be the joyfully married husband of Marla, father of eight kind-hearted children and grandpa of Aiden.
