

DR. MAUREEN LETCHER

Candidate for President-elect Pennsylvania Principals Association

Part of the mission of the PA Principals Association is to comprehensively support the educational leaders of our schools. During my time as a member of the Principals Association, this support has been invaluable to my career in providing the guidance and professional development that is needed to grow and succeed as an educational leader. As president-elect, I will continue to promote the key components of the association by advocating for our profession and providing a network of collegiality for fellow administrators, while upholding fiscal responsibility. There is no better way to grow, both professionally and personally, than by having a valuable support system at one's fingertips.

Career and Technical Awards

We as educational leaders will work together to...

- ◆ Provide all students, especially those furthest from opportunity, avenues to thrive and reach their highest potential as problem solvers and lifelong learners.
- ◆ Provide a safe place for all students to come to learn, and to grow.
- ◆ Provide a support system for our teachers and one another
- ◆ Provide the opportunity for professional growth and continue "to be the best service organization of its kind in the United States" (PA Principals Association Vision)
