

Dedicated Husband, Father, Principal, and PA Principal's Board Member.

Throughout the last four years, I had the pleasure of serving the members of our Pennsylvania Principals Association as **West II Region as Secondary Regional Representative**. In addition to this responsibility, I also served the association as a member of the **conference committee**, a consistent contributor of the **PA Administrator** and a presenter at our **LEAD Conferences**. Throughout this time, I was also appointed to serve as a member of the Pennsylvania Department of Education's **School Improvement Advisory Committee**. In addition, I have served my local school district and community as a **School Board Member** for the past 4 years.

Bringing to the association my perspective as a Principal, School Board Member, and Board Member of our PA Principals Association, it is my goal to **continue the momentum** that has been built by **great leadership at the President and Executive Level** throughout the past several years. As **President-Elect**, I vow to continue this path of excellence for our Association in many areas and particularly in the area of membership retention and growth, timely and relevant Professional-Development programs for Leaders, strong fiscal footing, and **advocacy for the role of the Principal in the greater educational context.**

If elected to President-Elect, my goal will be to **continue to advocate and serve you** as you seek to support and serve your students, teachers, and districts.

Virtual School Assembly - Jay Barris

"How perseverance can get you through a pandemic"

Dr. Jerald "Jay" Barris

Candidate for President Elect

Pennsylvania Principals Association

The mission of the Pennsylvania Principals Association is to ensure a quality education for every child by comprehensively supporting the educational leaders of our schools.

Act 82: A Traditional Approach to Supervising Online Teachers at the Pennsylvania Cyber Charter School

The Pennsylvania Cyber Charter School (PACS) has been a pioneer in online education. While PACS has made many improvements and the state has adopted the new Act 82, a new approach to supervising online teachers is needed. This article is intended to help online teachers understand the requirements of Act 82 and how to meet them. The author is a former teacher and current administrator at PACS. The article is intended to help online teachers understand the requirements of Act 82 and how to meet them. The author is a former teacher and current administrator at PACS.
