Deadline to register is **Wednesday, October 2, 2019**

Limited to 70 participants

Any questions should be directed to Dr. Joseph Clapper at [clapper@papincipals.org](mailto:clapper@papincipals.org)

### ABOUT

Building a college and career readiness system in your school requires the integration of challenging coursework, informational data, focused assessments and opportunity for all students. This workshop examines how to use AP and SAT Suite of Assessments to ensure your students are prepared for college and career.

### DETAILS

Those invited to attend the workshop are administrators, teachers and counselors. We encourage schools to send teams of up to five. Please note that because of limited space, no school will be able to enroll more than five participants. It is expected that each participant will bring a **FULLY CHARGED** tablet or laptop computer and will be able to access their school/district data portal.

Presented by Alan Bernstein, Senior Director
