

School Counselors: Data to Support Planning for Students in Grades 4-8

School Counselors play a significant role in supporting students as they work together with families, teachers, and administrators. PVAAS provides school counselors with a comprehensive view of a student's entire state assessment history, as well as projecting future assessments such as performance on PSSA, Keystones and AP exams. Discover how PVAAS student level data can strengthen decision-making criteria when identifying appropriate courses and programs for students (including Math, ELA, Science, Keystones and pre-AP, as well as intervention, enrichment, and acceleration).

2

Act 48 in Pennsylvania is a competency-based program whereby professional educators may earn credits to maintain active certification. Participants can only receive credit for the actual time involved in the offering. No credit can be given when direct instruction is not taking place (i.e., breaks, lunch, dinner, etc.). Furthermore, Act 48 (24 P.S. §12-1205.2(c)) requires that continuing professional education programs, activities or learning experiences be - related to an area of the professional educator's assignment or certification. * Individuals not seeking Act 48 credits may disregard.
