Let's Talk about School Improvement that Stands the Test of Time

Read a chapter a month and attend a free one-hour monthly Zoom meeting to discuss with colleagues and author Patricia Wright how the Connected Action Roadmap can bring sustainable improvement to your school to support student learning.

Focus Questions

1. How is Roadblock Thinking impacting the foundation of your school/district?
2. What elements of the CAR process are a priority in your school/district?
3. How can leadership begin to set a new vision and remove barriers to a systemic approach to continuous school/district improvement?
4. Can you be an effective leader in an ineffective system?

This book **challenges** educators to embrace **forward thinking**. Instead of depending on the next newest innovation or program or falling back to “the way we have always done it,” the **CAR method** provides a framework that **allows educators and school leaders to equitably and coherently address student learning** by engaging in the deep conversations that are vital to effective practice.
