
PA Principals Are Invited!

Throughout the 2023-24 academic year, Pennsylvania Association of Rural and Small Schools and College Board are offering a professional learning series to support the work you're doing to enhance and expand opportunities for your students. We hope you will join us!

AP Classroom for Principals **Sponsored by PARSS and PA Principals Association** **Wednesday, October 4, 9am-10am**

AP Classroom is a collection of resources that distinguishes AP from other advanced coursework opportunities. It provides all-in-one teaching support with resources that can help teachers plan, create assignments and practice quizzes, and track student progress and results. During this session, principals will learn about the resources available to AP teachers in AP Classroom. We will discuss how to coach and monitor teacher and student usage of these resources.
