

Session Description: *Networking is a comfortable way to set each other up for success. We need your input in order to best plan for the PA Principals Association networking sessions, so they are meaningful for YOU. Kindly use this [simple survey](#) to submit a topic(s) suggestion. Nothing but “NET” working was designed to meet the needs of our PA Principals as a direct result of your survey responses with the PA Principals Association. We hope you can join us to learn and share ideas based on the topic(s) of your choice. Look for a follow-up notification announcing the topic(s) for March 28th.*
