## West Region II Secondary

### Who Am I?

I am the principal at Beaver Falls High School in the Big Beaver Falls Area School District, Beaver Falls, PA. Once a Tiger, Always a Tiger! I have been the principal since March of 2020, meaning my first task was to lead our school through the Covid-19 pandemic and to attempt to navigate all of the pitfalls that it entailed. Our staff and community pulled together and we are stronger because of it.

Currently, I am excited about two initiatives that I have worked to bring to Beaver Falls that are taking off. Our Tiger Academies initiative will provide our students with career preparation throughout their time at the high school. Link Crew is a freshmen transition program that builds student leadership capacity and focuses on the 9th-grade experience throughout the year.

I bring 24 years of experience in education to the table. I was an assistant principal for ten years at Hopewell High School and an English teacher at Rochester High School before moving to administration. I have also coached high school football and softball and I have served on the WPIAL Sportsmanship Committee and Football Steering Committee. I have twice served as MAC Principals Association President, and I've had the opportunity to work with principals from around the country on the NASSP National Scholarship Committee as well as the NASSP Student Contests, Programs, and Activities Committee.

### I Stand For

My mentor, Mike Allison (former NASSP and PA Principals president and board member), taught me the value and importance of the principalship and of serving fellow principals. I look forward to the opportunity to collaborate with principals around the state as a servant leader.
