Connection Instructions

1. For Wired Service:

Connect the network cable to your device.

For Wireless Service:

Turn on the wireless service on your device, and if prompted, connect to the wireless network.

2. Open your web browser.

This should automatically bring up the login page. If not, please type myinternet.support into the web browser address bar and press Enter. You should now see the login page.

if you still don't see the login page, please ensure you are connected to the correct wireless network (See step 1).

3. Follow the on-screen instructions and accept the terms of service.

To access upgrade options after logging in, type myinternet.support into the web browser address bar and press Enter.

iPod, iPhone and iPad

1. Tap on Settings
2. Select Wi-Fi
3. Confirm that the Wi-Fi slider is ON
4. Select the network
5. Continue with the login process from Step 2 in the previous section
